

# Attention retailers: Are you selling drug paraphernalia?

## New Kansas drug paraphernalia law is *now* in effect

It is now illegal for stores to offer for sale items that are intended or designed for use to consume or ingest illegal drugs.

<http://www.kslegislature.org/bills/2008/2062.pdf>

### Illegal items under the new law:

- Glass/metal pipes
- Bongs and water pipes
- Pipes disguised as pens, incense, key chains or other items
- “Jewelry” or “Postal” scales
- This list is not all-inclusive. See KSA 65-4150

### Penalties for the sale of drug paraphernalia:

- Up to 24 months in prison
- Fines up to \$100,000
- Possible forfeiture of assets

Local law enforcement officers conduct random, unannounced inspections of retailers to ensure compliance.

Communities that have paraphernalia for sale in retail stores establish unhealthy conditions that make it more likely that kids will use illegal drugs. Help keep our kids safe and obey the law!
